

Good Afternoon,

I'm writing this letter to encourage you to add 2 teachers to the retirement governing body. It is only proper, as well as common sense, for teachers to represent teachers.

As a retired teacher, I've watched many promises to teachers, broken. To reference an easy one, we are still waiting for our state income tax write off increased to 50%. Year after year, we hear from the registration that it can't be done this year. It has become easier to deny that one each year after year. It is almost like they rubber stamp that with MAYBE NEXT YEAR. BROKEN PROMISE.

PLEASE add the 2 teachers to retirement board.
