

March 11, 2021

Dear Senator Osten, Representative Walker, Senator Miner, Representative France and members of the Appropriations Committee -

I am a retired educator who worked (teacher and administrator) in the public schools of CT for 41 years. I am in support of better representation of retired teachers on the TRB, and I believe in order to better represent retired teachers the two additional members should be nominated by an organization that is exclusively composed of retired teachers not currently represented on the TRB, and they should be enrolled in a TRB healthcare plan.

Sincerely,
John Sieller
Watertown, CT
