SB1080 Addresses revisions to Teachers' Retirement System

To Senator Osten, Representative Walker, Senator Miner, Representative France, and Members of the Appropriations Committee:

SB1080 addresses revisions to the Teachers' Retirement System The meeting is Friday, March 26, 2021. My concern is the underrepresentation of RETIRED teachers on the Board. Presently there are only TWO retired teachers on this board but FOUR representing active teachers. In 2020 there were 50,000 active teachers and 38,000 retired teachers. We must adjust the Board numbers for equality. The additional retired teacher on the Board will add to discussions of pensions and health benefits. This should be an ARTC member who will help make decisions about administrating the retirement program.

Sincerely,

Donna S. Christian
