Re: Raised SB1080 Address revision to the Teachers' Retirement System in reference to the March 26, 2021 public hearing.

Dear Appropriation Committee and Senators and Representatives,

I am writing in support of adding an additional elected retired teacher to the TRB to provide adequate and additional representation for retired teachers on the TRB. Presently there is not enough representation on "the board" to speak for and to the interests and needs of the large body of retired teachers. We request a greater representation of elected retired teachers sitting on the TRB board.

By adding one or more retired teachers to the TRB, retired teachers would be more fairly represented than we are at present..

Marge
