sSB-961

AN ACT CONCERNING CERTAIN SEWAGE DISPOSAL SYSTEMS
AND ALTERNATIVE SEWAGE TREATMENT SYSTEMS.

AMENDMENT

LCO No.: 8660

File Copy No.: 558

Senate Calendar No.: 324

OFA Fiscal Note

No Fiscal Impact

The amendment replaces the underlying bill and its associated fiscal impact.

Instead, it requires the Department of Energy and Environmental Protection (DEEP) and the Department of Public Health (DPH) to study existing categories of discharge for alternative on-site and community sewage treatment systems, and the administrative jurisdiction for these permits. Additionally, the amendment requires DEEP and DPH to submit a report to the Planning and Development, Environment, and Public Health Committees, by January 1, 2022, on the findings of the study and any legislative recommendations. This is not anticipated to result in a fiscal impact as DEEP and DPH have the expertise for this purpose.

The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.
