## ***OFA Fiscal Note***

### ***Minimal Cost***

The amendment states that Legislative Management shall not operate the personal screening system and shall remove said system in the Legislative Office Building and at the State Capitol.

It is estimated to cost \$75,000 to remove and store the turnstiles and package scanners and to disable the security card access entrances for legislators and employees. This amount only reflects removing the software and hardware in the legislator/employee entrances with keeping the current door configuration in tack.
