

To Whom It May Concern,

We would like to express our concern regarding SB1024, HB6107, HB6611 HB 6112 HB6613 SB1026 SB 1027 HB 6107. We are against the state mandating control over local zoning and environmental regulations. The state government should not be telling the towns what they can and cannot do. Each town has it's own regulations specific to it's needs and knows what is best for it's community. These mandates if passed will ruin the lovely cities and towns in this state that people love. We urge you to say NO!!!

Thank you,
Kevin and Joyce Cole
