

Regarding SB 171, SB 172 and SB 1024, I am sick to death of the acts Connecticut politicians have taken to seize the wealth and impair the freedom of CT taxpayers. That they are again planning to do so, especially at a time when the self-dealing statisticians in Washington, DC, are doing the same thing, is indicative of just how little CT political hacks care for the people who live and work here. I hope to leave CT soon, moving to a state where the politicians regard the people they are elected to serve as employers rather than as serfs.
