

Dear Planning & Development Committee,

This is my written testimony in favor of SB 1024.

The bill addresses injustices that have persisted far too long in regard to housing and related zoning issues. Segregated housing is one of most serious outcomes of historical racism and one of the root causes of segregated schools and economic inequities. I urge you to pass SB 1024 to begin the major changes we need.

Thank you so much for considering it.

Cathryn Hendon (Kay)
