

March 13, 2021

Dear Sir or Madam,

Initially I thought SB 1024 was a joke but apparently, it's not. Are you kidding? Since when was state government in the business of zoning and development?

I am a Stamford resident for over 25 years and am strongly OPPOSED to SB 1024. The impact on the city's infrastructure, schools and environment would be negative.

As a side note, we're fairly tapped out here in Stamford.
