

Dear Legislators,

We oppose the above referenced bills in front of you for deliberation at this time.

We came to CT for the benefits of living here. These proposed bills would seriously and adversely affect our communities and way of life.

We are already onerously taxed, not to mention our absurd utility bills.

Leave our communities alone to decide what's best for us. We pay property and personal property taxes for that purpose.

The system works as it is. Leave it alone. Stay at of lives. Further state infringement in our lives is unacceptable.

Respectfully submitted,

Angela R. Kelleher
