

Dear Planning & Development Committee,

For our state to thrive we need more diverse housing options. I have seen this need first hand during my 20 years as an architect in Guilford. After moving from Cambridge, MA my only housing option in my small CT town was a modest single family house - and even 20 years ago that was hard to find. I am in favor of SB 1024, and hope you will support it.

Thank you for your service.

Mary Jo Kestner

Guilford
