

I would like to express my strong **OPPOSITION** to SB- 1024 proposed bill. Nobody argues that we want better opportunities and better life for every citizen of this country. However, your proposed SB- 1024 bill does **NOTHING** to address the real issue. SB-1024 is a product of constant attacks on cities and towns that actually work, and it must stop. This bill, created by certain Democrat-run interest groups, is designed to blame Darien and towns alike for their successful school system, successful budget, successful daily operational systems, and successful low crime rate. Other towns like Waterbury, Bridgeport, and New Haven have neglected to look after their citizens and secure their well-being. **Proposed bill will simply allow to forcefully disperse citizens from these poorly-run towns and put them up into “affordable housing” elsewhere. This will do NOTHING to improve generations-long problems withing certain communities.** It will, on the other hand, **CREATE NEW PROBLEMS** in our state where more and more towns will be overburdened by inappropriate overregulation, unfair treatment, and unjust government overreach.

We all want better lives for citizens of every town - white, black, yellow or red - but elected officials must look for solutions which promote education and hard work, fight crime and reward productivity – **NOT by squeezing our residents into randomly-created “affordable housing” units.** Our fellow residents deserve a better sustainable future withing their own communities– and NOT being shipped to inappropriately-zoned multi-family dwelling.

Thank you for your consideration.
