

To think this proposed legislation won't crush the individuality of communities is absurd.

Stop governing by skin color, stop trying to force "equality" thinking that jamming low income or multi-family housing in high income areas will produce anything but high crime and legally armed citizens defending their homes.

If anyone votes in favor of this, I challenge you to put your money where your mouth is and volunteer to have those developments put right in your backyard.

This is not about skin color, minorities (whatever the heck that means as God teaches us to love the heart of a person, not their pigmentation)...this is about towns being allowed to govern themselves. And only logical people know that overreaching government control of ANYTHING is always a disaster. Hello DMV?

Stay out of our local governance. Stop crushing democracy for the lie that "I'm from the Government, and I'm here to help."
