

Testimony in Support of SB 1024

To the Planning & Development Committee,

As a new homeowner in Westbrook, CT, I am in support of SB 1024 and the proposals being put forth about accessory housing and creating more density to encourage and help build a more diverse community. Living in a city offers so many opportunities to meet, socialize and work with people of all backgrounds and races. Living in the suburban communities does not. We as a society need to break the barriers that are in place that prevent people of lower incomes, seniors, students, young families, single people and single parents from moving to the suburban towns in Connecticut. I would like those people to have the opportunity to live in communities like Westbrook, to build a better, more perfect community, one with all types of people living together.

Thank you so much for considering it.

Sincerely,

Susan McCaslin
Westbrook, CT
