

My name is Wynn McDaniel and I am a lifelong resident of Connecticut. I am an elected member of the Representative Town Committee and Chair of our District, however, I am speaking as an individual. I have traveled throughout Connecticut many times and each town and city has its unique features. All combined, this is what makes Connecticut what it is today. As a result, I strongly believe that we cannot allow the State to mandate how we conduct our local zoning. Having been to many local Planning & Zoning meetings, I hear the discussion from neighbors about pending development, the impact to neighborhoods, safety of our children riding bikes, traffic congestion, etc. There is no way a State-run zoning guideline can address the needs of a local community. I urge you to oppose this Bill SB 1024.
