Subject: Oppose S.B. 1024

This is to OPPOSE SBs 1024 that would unjustly and unfairly penalize us, simply by accident of living near a train station.

These proposals give the impression of being biased and discriminatory.

Since we are now required by government mandate to work from home, we are no longer obliged to live near NYC, nor even in the Eastern time zone.

This bill provides us further incentive to move to another state that is less unfair and unjust.

Respectfully submitted,

Andrew C. Millar
