

Dear Planning & Development Committee,

Below is my written testimony in favor of SB 1024.

Connecticut needs to provide more affordable housing opportunities to individuals and families who will help grow our state equitably and sustainably.

This Bill is among the first holistic solutions I have seen put forth in my 13 years as a Connecticut resident.

It provides a viable path to equity across all sectors including housing, transportation, and access to jobs.

Thank you so much for considering it.

Holly Parker  
West Hartford
