

I want every congressman in Connecticut that represents me to vote NO to S.B. 1024.

Giving a small group of people in Hartford the power to make decisions that affect my every day existence is not acceptable.

Every town and city in Connecticut has its own needs and plans for development - that gives them the unique ability to decide what is, and is not, acceptable for the better of their entire community.

Local residents, not the state, know what works best for their community – especially concerning development.

Vote NO to S.B. 1024

Betsy Shay  
135 Leroy Avenue  
Darien, CT
