

I absolutely oppose the bills being proposed in the state legislature that would impose a statewide property tax and restrict local zoning control, Bills SB171 and SB 1024.

CT is one of the highest taxed states, enough is enough, do not allow the "mansion tax" bill to go forward.

And do not allow restrictions on local zoning control. Local zoning should remain local, and only local.

Both of these bills are extreme government overreach and need to be tossed out immediately., if not sooner.
