**Dear Planning & Development Committee,**

**I am writing you in support of SB 1024. The time is long past due for us to address housing needs, affordability and residential equity here in Connecticut. Leaving so much of our zoning activity in local hands has produced nothing but exclusionary policy for decades now. In setting some zoning mandates at the state level, there is a promise of enabling genuine change in opening suburban communities to more diverse populations, an act, I believe which would have benefits for us all.**

**Please support SB 1024 and let's get started on residential equity in Connecticut.**

**Thank you.**
