

I am not a resident of Connecticut but I am writing to you because my son, daughter-in-law and two grandchildren live in beautiful Fairfield Connecticut.

I am extremely concerned over the many proposals mentioned in the above bills. My son and his family moved from New York (where he was raised) to Connecticut because of its beauty and quaint like charm and appeal.

Each town has its own character. To take a one size fits all approach with regard to rezoning would be very damaging to many communities.

If these bills pass, especially SB 1024, residents rights will be greatly abused. Many residents will start leaving as is happening in New York ultimately lowering home values in many communities.

I am asking that you please vote NO to these bills.

Thank you.

Sincerely,

Lisa Vereline
