

HB 1024

I'm writing to share my opposition and alarm at HR 1024 and the similar mandates to be discussed in Hartford starting Monday. I understand these proposals will usurp local zoning/home rule and irrevocably change Fairfield. This is wrong and not an enlightened or fair approach to solving CT's affordable housing crisis.

As your constituent and supporter, I hope you will fight very hard to make sure these mandates are rejected. Thanks.
