Sec. 3. (Effective from passage) (a) As used in this section:

(1) "COVID-19" means the respiratory disease designated by the World Health Organization on February 11, 2020, as coronavirus 2019, and any related mutation thereof recognized by the World Health Organization as a communicable respiratory disease.

(2) "School day" means an actual school session that is part of the official school calendar originally adopted by the local or regional board of education.

(3) "COVID-19 relief day" means a school day in which the schools under the jurisdiction of the local or regional board of education are closed due to COVID-19 or in which additional in-service training is provided in accordance with the provisions of section 10-220a of the general statutes.

(4) "School year" means the school year commencing July 1, 2021.

(b) For the school year commencing July 1, 2021, a local or regional
board of education may designate up to five school days as COVID-19 relief days for the school year. A school day may be designated as a COVID-19 relief day if it was necessary to cancel such school day because (1) of high infection rates or staff shortages due to COVID-19, or (2) the board of education believes such designation is necessary to ease the burden of COVID-19 on the school district and will improve the health, safety and welfare of students and staff. A COVID-19 relief day may be designated for any school day of the school year that (A) was cancelled on or before the effective date of this section due to high infection rates or staff shortages due to COVID-19, or (B) is scheduled on or after the effective date of this section due to COVID-19, provided such designation is in accordance with the provisions of subsection (d) of this section. A school day that has been designated as a COVID-19 relief day under this section need not be rescheduled during the school year.

(c) A COVID-19 relief day designated under this section shall be considered an actual school session for purposes of sections 10-15 and 10-16 of the general statutes.

(d) (1) Except as otherwise provided in subdivision (2) of this subsection, on and after the effective date of this section, a local or regional board of education may amend its official school calendar for the school year to replace existing school days with not more than three prospective COVID-19 relief days in accordance with the provisions of this section, provided (A) such board may not schedule any such prospective COVID-19 relief days on consecutive existing school days during the school year, except such board may schedule consecutive prospective COVID-19 relief days for the final three school days of the school year, (B) any such prospective COVID-19 relief day is scheduled for not earlier than thirty calendar days from the date of such designation, and (C) notice of any such prospective COVID-19 relief day is provided to the staff of each school under the jurisdiction of such board and the parents and guardians of each student enrolled in such schools at least thirty calendar days in advance of such prospective COVID-19 relief day. A board may use any such prospective COVID-19
relief day to provide additional in-service training for its teachers, administrators, pupil personnel, paraprofessionals or noncertified employees in accordance with the provisions of section 10-220a of the general statutes.

(2) On and after the effective date of this section, in the event that high infection rates or staff shortages due to COVID-19 result in the closure of schools in the school district for a school day, a local or regional board of education may designate an emergency COVID-19 relief day for such school day in accordance with the provisions of this section, except the notice provisions of subdivision (1) of this subsection shall not apply to such designation. Any such emergency COVID-19 relief day shall replace a prospective COVID-19 relief day that may have previously been designated pursuant to subdivision (1) of this subsection if the board has already designated five COVID-19 relief days. A local or regional board of education may not designate an emergency COVID-19 relief day if such emergency COVID-19 relief day occurs after five previously designated or scheduled COVID-19 relief days.

(e) Any local or regional board of education that designates a school day in the school year as a COVID-19 relief day shall notify the Commissioner of Education of such designation and submit an updated copy of the amended official school calendar for the school district to the commissioner.
