***Municipal Impact:*** None

#### ***Explanation***

The amendment strikes the underlying bill and its associated fiscal impact.

The amendment excludes funds in an “Achieving a Better Life Experience” (ABLE) account<sup>1</sup> in the determination of a person's eligibility for the Department of Social Services (DSS) administered general assistance program (SAGA). Since most individuals with an ABLE account are receiving benefits under Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program and therefore not eligible for SAGA, the impact of the amendment is anticipated to be minimal, if any.

---

<sup>1</sup> DDS consumers are eligible to have an ABLE account.

The amendment also makes other technical and clarifying changes that have no fiscal impact. Some of the changes include:

The amendment allows and encourages the Department of Developmental Services (DDS) licensed residential facility owners to participate in energy assessment programs. This is not anticipated to result in a cost to the state or municipalities.

The amendment also requires DDS to report to the Public Health Committee on the findings and recommendations of the assessments. These provisions do not have a fiscal impact as DDS has the expertise to report on the assessments.

The amendment repeals Department of Developmental Services statutes related to family support services<sup>2</sup> and the Family Support Council<sup>3</sup> to reflect current practice and are not anticipated to have any fiscal impact to the state or municipalities.

The amendment increases, from \$100,000 to \$125,000, the statutory cost allowance cap for executive director salaries in the Department of Developmental Services', Department of Mental Health and Addiction Services', and other state agencies' calculations of grants to private agencies that provide employment opportunities or day services, or residential facility services. This change is not anticipated to result in a state cost as any increase in executive director salary within the allowable cap must be paid from within the provider's allocated budget.
