2097 section shall continue until the percentage of residents within the
2098 qualifying census tract with incomes below the federal poverty level is
2099 equal to or exceeds the average percentage of residents with incomes
2100 below the federal poverty level, according to the most recent five-year
2101 United States Census Bureau American Community Survey, within all
2102 municipalities contiguous to the municipality in which such qualifying

2109 the tax otherwise due under chapter 229 of the general statutes and shall
2110 be liable for an additional twenty per cent each taxable year thereafter,
2111 until such qualifying resident is liable for all tax due under chapter 229
2112 of the general statutes. The municipality and qualifying residents
2113 subject to a phase-out pursuant to this subsection shall provide any
2114 information needed by the department to process the phase-out.

2120 number of individuals claiming the exemption under this section, an
2121 estimate of the revenue loss resulting from such exemption, the
2122 municipalities in which qualifying residents claiming the exemption
2123 under this section reside and any other information the commissioner
2124 deems informative to assess the impact and effectiveness of the
2125 exemption under this section.

2126 Sec. 89. (*Effective from passage*) Not later than October 1, 2023, and
2127 quarterly thereafter until completion of the projects identified in
2128 subdivisions (1) and (2) of this section, the Department of
2129 Administrative Services shall submit a report, in accordance with the
2130 provisions of section 11-4a of the general statutes, to the joint standing

Explanation

Table 1 below summarizes the increases and reductions made to General Obligation (GO) bonds, Special Tax Obligation (STO) bonds, and Clean Water Fund (CWF) revenue bonds in FY 24 and FY 25.

¹The fringe benefit costs for most state employees are budgeted centrally in accounts administered by the Comptroller. The estimated active employee fringe benefit cost associated with most personnel changes is 42.82% of payroll in FY 24.

Table 2 indicates the eventual total General Fund fiscal impact of the bill, through debt service, if all GO bonds authorized by the bill for FY 24 and FY 25 are allocated by the State Bond Commission and issued by the Office of the State Treasurer. If new authorizations are fully allocated when effective, there would be a cost to the General Fund for debt service of approximately \$55.6 million in FY 24 and \$271.1 million in FY 25. The remaining debt service costs identified in Table 2 would be repaid after the biennium.

The debt service associated with additional GO bond authorizations that become effective after the biennium are shown in Table 2 and discussed further in the Out Years section below.

Table 3 indicates the eventual total Special Transportation Fund (STF) fiscal impact of the bill, through debt service, if all STO bonds authorized by the bill are allocated by the State Bond Commission and issued by the Office of the State Treasurer. If new STO authorizations are fully allocated, there would be an annual cost to the STF for debt service of approximately \$120.0 million in FY 24 and \$245.8 million in FY 25. Total debt service costs for STO bond authorizations are identified in Table 3, most of which would be repaid after the biennium.

Clean Water Fund Revenue Bonds

Clean Water Fund Revenue bonds are issued and repaid using the resources of the Clean Water Fund. These bonds are not expected to have an impact on appropriated funds.

Municipal Impact of Bonding Provisions

To the extent authorized bonds are allocated by the State Bond Commission, the bill will result in a collective municipal revenue gain of at least \$151 million in each of FY 24 and FY 25, including revenue from two programs (Local Capital Improvement Program (LoCIP) - \$60 million each year, and Grants for Municipal Purposes - \$91 million each year). New authorizations for multiple other bond programs, including

programs regarding school construction, urban development projects, and drinking water programs, will also result in additional revenue gain to various municipalities.

High Poverty Low Opportunity Census Tract Program

Section 87 results in cost of \$562,716 to the Department of Economic and Community Development (DECD) to administer the bond program for high poverty-low opportunity census tracts. It is anticipated that DECD would require four positions with a cost of \$380,000 in salary and \$162,716 in fringe plus \$20,000 for general expenses to administer the \$165 million in bond funds available to the program per year.

Section 88, which establishes an income tax exemption for certain residents of qualifying census tracts, results in (1) an indeterminate revenue loss beginning in FY 24, and (2) a one-time cost of up to \$75,000 in FY 24 for programming updates to the CTax tax administration system and myconneCT online portal, and for form modification.²

Section 90, which repeals an existing homeownership incentive program currently authorized for Hartford, does not result in any fiscal impact as the program has never been implemented.

The Out Years

The annualized ongoing fiscal impacts identified above would continue into the future subject to inflation and the terms of any bonds issued.

Bond Authorizations After FY 25

Sections 83 and 87 include bond authorizations where a portion of the funds becomes effective after the biennium. The authorizations from these sections for FY 24 and FY 25 are included in the totals shown above. Section 83 authorizes a total of \$300 million of GO bonds after the biennium (\$150 million in each of FY 26 and FY 27). Section 87

² Income tax data is not currently reported by census tract. Consequently, the magnitude of the revenue loss is unknown.

authorizes a total of \$1,320 million of GO bonds after the biennium (\$165 million annually for FY 26 through FY 33). To the extent these future authorizations are fully allocated, there would be a total cost to the General Fund for debt service of approximately \$2,531.6 million after the biennium, as reflected in Table 2.

OLR Bill Analysis**sSB 980*****AN ACT AUTHORIZING AND ADJUSTING BONDS OF THE STATE, ESTABLISHING PROGRAMS TO FUND PROJECTS IN HIGH POVERTY-LOW OPPORTUNITY CENSUS TRACTS AND PROVIDE EXEMPTIONS FROM THE INCOME TAXES FOR RESIDENTS OF SUCH TRACTS, AND ESTABLISHING A REPORTING REQUIREMENT FOR CERTAIN STATE PROJECTS.*****SUMMARY**

This bill authorizes up to \$2.205 billion for FY 24 and \$2.168 billion for FY 25 in state general obligation (GO) bonds for state capital projects and grant programs. This includes housing development and rehabilitation programs, school air quality improvement, school construction grants, economic development, and municipal aid programs. It also includes authorizations for the following:

1. a \$600 million, four-year bonding program (from FYs 24-27) for the Department of Energy and Environmental Protection (DEEP) to use in retrofitting projects for multi-family residences in environmental justice communities; and
2. a \$1.65 billion, 10-year bonding program, administered by the Department of Economic and Community Development (DECD), to fund qualifying capital projects and programs in eligible census tracts designated as “high poverty-low opportunity census tracts.”

The bill authorizes up to \$1.548 billion in new special tax obligation (STO) bonds for FY 24 and \$1.531 billion for FY 25 for transportation projects. It authorizes up to \$25 million in revenue bonds for FY 25 for Clean Water Fund loans. It also cancels or reduces \$90 million in current GO bonds authorizations.

Among its other changes, the bill establishes a 100% state income tax exemption for eligible homeowners and renters living in census tracts designated as high poverty-low opportunity census tracts. It eliminates a homeownership incentive program authorized for Hartford that allows a 100% state income tax exemption for residents meeting specified criteria. It also makes technical and conforming changes, including eliminating an obsolete provision (§ 61).

EFFECTIVE DATE: July 1, 2023, for FY 24 authorizations, and July 1, 2024, for FY 25 authorizations; remaining sections are effective July 1, 2023, unless otherwise noted.

§§ 1-38, 55, 81-82, 84 & 86 — NEW BOND AUTHORIZATIONS FOR STATE AGENCY PROJECTS AND GRANTS

The bill authorizes new GO bonds for FYs 24 and 25 for the state projects and grant programs listed in the table below. The bonds are subject to standard issuance procedures and have a maximum term of 20 years.

The bill includes a standard provision requiring that, as a condition of bond authorizations for grants to private entities, each granting agency include repayment provisions in its grant contract in case the facility for which the grant is made ceases to be used for the grant purposes within 10 years of the grantee receiving it. The required repayment is reduced by 10% for each full year that the facility is used for the grant purpose.

§ 60 — CONSTRUCTION GRANTS TO PUBLIC LIBRARIES

Current law authorizes the State Library Board to award grants for public library construction for up to one-half of a project's total construction costs, subject to a \$1 million per project cap. For project applications submitted on or after July 1, 2023, the bill increases the (1) grant amount allowed for projects in distressed municipalities (see BACKGROUND) to up to 80% of the total construction costs and (2) maximum grant allowed for any project to \$2 million. As under current law, the grants are subject to the board's approval and available funding.

§ 65 — MANUFACTURING ASSISTANCE ACT

Under current law, the Manufacturing Assistance Act (MAA) earmarks \$2 million per year from FYs 17-21 (\$10 million total) to fund the Technology Talent Advisory Committee's costs. The bill instead authorizes up to \$10 million in MAA bonds to be used for this purpose beginning July 1, 2023.

Existing law establishes the Technology Talent Advisory Committee within DECD to identify shortages of qualified employees in specific technology sectors and develop pilot programs to address those shortages.

§§ 68-75 & 77-78 — BOND CANCELLATIONS AND REDUCTIONS

The bill cancels or reduces, by a total of \$90 million, all or part of current bond authorizations for the projects and grants shown in the table below.

Table: Cancellations and Reductions

§	Agency and Purpose	Current Authorization	Amount Cancelled
69	DAS: Grants to municipalities for a regional school district incentive grant	\$5,000,000	\$5,000,000
71	DAS: Grants to alliance districts for general improvements to school buildings	30,000,000	12,000,000
73	DOT: Construction, repair, or maintenance of highways, roads, bridges, or bus and rail facilities and equipment	180,000,000	50,000,000
75	DAS: Grants to alliance districts for general improvements to school buildings	6,000,000	6,000,000
77	OPM: Grant to the Commission on Gun Violence Prevention and Intervention	12,000,000	12,000,000
78	Connecticut Port Authority: port projects in towns other than New Haven, New London, or Bridgeport	25,000,000 (\$5 million in each year from FY 22-26)	5,000,000 (\$2.5 million reduction in FYs 24 and 25)

§ 76 — DEEP AUTHORIZATION FOR PROJECTS THAT DECREASE ENVIRONMENTAL IMPACTS

The bill modifies the purpose for an existing \$10 million GO bond authorization to DEEP for projects in state buildings and assets that decrease environmental impacts. Under current law, the bonds may be used for projects that expand electric vehicle charging infrastructure to support charging state-owned or leased electric vehicles. The bill instead authorizes them for projects that support electric vehicle charging infrastructure on state property.

EFFECTIVE DATE: Upon passage

§ 79 — STATE MATCHING FUNDS FOR PROJECTS AND PROGRAMS ALLOWED UNDER FEDERAL LAW

Current law authorizes up to \$75 million in GO bonds for OPM to use as state matching funds for projects and programs allowed under the federal Infrastructure Investment and Jobs Act. The bill additionally allows OPM to use this authorization for state matching funds for projects and programs allowed under the federal Inflation Reduction Act of 2022.

EFFECTIVE DATE: Upon passage

§ 80 — BONDS FOR CAREERCONNECT WORKFORCE TRAINING PROGRAMS

The bill allocates to the Office of Workforce Strategy (OWS) \$40 million in GO bonds currently authorized for DECD for CareerConneCT workforce training programs, and requires OWS to administer them.

§ 83 — RETROFITTING PROJECTS FOR MULTI-FAMILY RESIDENCES IN ENVIRONMENTAL JUSTICE COMMUNITIES

The bill authorizes up to \$600 million in GO bonds (\$150 million per year from FYs 24-27) for DEEP to use in retrofitting projects for multi-family residences in environmental justice communities (see *Related Bills*).

By law, an “environmental justice community” is (1) any U.S. census block group, as determined by the most recent census, for which at least

30% of the population consists of low-income people who are not institutionalized and have an income below 200% of the federal poverty level or (2) a distressed municipality (CGS § 22a-20a).

§ 85 — BUSINESS AND INDUSTRIAL DEVELOPMENT CORPORATIONS

The bill authorizes up to \$15 million in GO bonds for DECD to give grants to business and industrial development corporations (BIDCO) whose primary purposes are to:

1. provide financing and management assistance to minority- and women-owned small businesses that serve or seek to serve underserved or minority communities,
2. provide education and training to these businesses and communities, and
3. work collaboratively with similar organizations and lenders to promote economic development and growth in these communities.

Under the bill, an entity that has applied to the state Department of Banking for a BIDCO license and meets all but one of the statutory requirements for licensure is eligible for the grant. Specifically, the entity must (1) have directors and officers of good character who can competently conduct the corporation's affairs, (2) be likely to comply with the state's BIDCO laws and regulations, and (3) promote the public convenience and advantage. The entity does not need to meet the minimum net worth requirement for BIDCO licensure to qualify (i.e., have a net worth of more than \$2.5 million and be able to adequately cover the cost of doing business as a BIDCO).

DECD may award up to \$5 million per BIDCO or applicant for BIDCO licensure. Any BIDCO awarded a grant may use up to 10% of it for operational costs and to fund a loan loss reserve fund.

§ 87 — 10-YEAR BONDING PROGRAM FOR HIGH POVERTY-LOW OPPORTUNITY CENSUS TRACTS

The bill authorizes a 10-year, \$1.65 billion bonding program, administered by DECD, to fund qualifying capital projects and programs in eligible census tracts designated as “high poverty-low opportunity census tracts.” Under the bill, these are census tracts in which 30% or more of the residents have incomes below the federal poverty level, according to the most recent five-year U.S. Census Bureau’s American Community Survey (see BACKGROUND). The bill authorizes up to \$165 million in GO bonds per year from FYs 24-33 for the program.

Under the bill, the OPM secretary must (1) compile a list of these census tracts and the municipalities they are in; (2) submit it to the legislature by July 31, 2023; (3) post it on OPM’s website; and (4) review and update it as necessary, including providing updates to the General Assembly.

Authorized Purposes

The bill authorizes DECD to use the bond proceeds for the following purposes within the designated tracts to benefit their residents:

1. building, renovating, and rehabilitating mixed-income housing;
2. establishing or improving workforce development programs;
3. establishing or improving preschool education, enrichment, or day care programs;
4. establishing or improving primary and secondary education programs;
5. building, renovating, or rehabilitating public infrastructure; and
6. establishing or improving early intervention programs to prevent and reduce gun violence.

Application and Review Process

The bill allows any municipality in which a high poverty-low opportunity census tract is located to apply for a grant to the DECD

commissioner, as she specifies, for each fiscal year from FYs 24-33. By January 1, 2024, the commissioner must set the (1) criteria for awarding the grants; (2) documentation and information required from municipalities to evaluate their applications; and (3) deadlines for submitting applications and the governor's recommended revisions, as described below. She must post these criteria and requirements on DECD's website and notify each municipality in which a qualifying census tract is located of the posting.

DECD must review and evaluate each application and work with the applicant to revise it if DECD believes that will improve or strengthen it. Each fiscal year, the commissioner must submit all initial or revised applications it received to the governor, who in turn must review them and may recommend changes. Any municipality for which the governor recommends a change may submit a revised application to the DECD commissioner, who must then forward it to the governor. Each finalized application the governor approves must be considered at a State Bond Commission meeting within two months after the date DECD sent the application to the governor. (It is unclear whether this two-month timeframe is based on the date DECD sent the original or revised application.)

Grant Awards

The governor may award the grant from the bonds authorized under this new bonding program or other bond proceeds authorized for the general purposes described above. Each grant awarded under the program must be for \$3 million per fiscal year, for a three-year period (i.e., \$9 million).

Evaluation

At the end of this initial three-year period, the commissioner must evaluate the municipality's progress towards reducing the poverty rate of residents within the respective census tract. If she finds that the municipality made reasonable progress, the municipality may apply for additional grants under the program. The bill specifies that any subsequent grant applications are subject to the bill's application and

review process and post-grant evaluation and determination.

Reporting Requirement

Annually, starting by August 1, 2024, the commissioner must report to the General Assembly on the program and include the following information for the preceding fiscal year:

1. the municipalities that submitted applications and were awarded grants;
2. a description of each purpose and project municipalities awarded grants are undertaking or trying to accomplish;
3. a progress report for each of these purposes or projects, if applicable; and
4. any other information she finds relevant.

§§ 88 & 90 — HOMEOWNERSHIP AND TENANT RETENTION PROGRAM FOR HIGH POVERTY-LOW OPPORTUNITY CENSUS TRACTS

The bill establishes a 100% state income tax exemption for eligible homeowners and renters living in census tracts designated as “high poverty-low opportunity census tracts” to encourage homeownership and tenant retention in these areas. As under the bonding program described above, these are census tracts in which 30% or more of the residents have incomes below the federal poverty level, according to the most recent five-year U.S. Census Bureau’s American Community Survey. Each municipality in which a qualifying census tract is located must (1) implement an outreach program to publicize the program to qualifying residents and (2) consult with the OPM secretary and Department of Revenue Services (DRS) commissioner in doing so.

The bill also eliminates a homeownership incentive program currently authorized for Hartford that allows a 100% state income tax exemption for residents meeting specified criteria. To date, Hartford has not implemented the program. Under current law, Hartford must designate at least two census tracts for the program that have a

homeownership rate of 15% or less. Residents of these designated areas receive an income tax exemption if they are (1) owners of owner-occupied homes (generally residential structures with three or fewer units) or (2) renters of their primary residence who graduated from a four-year college within two years before signing the lease agreement.

EFFECTIVE DATE: July 1, 2023; the income tax exemption is applicable to tax years starting on or after January 1, 2023.

Tax Exemption Eligibility Criteria

The bill's income tax exemption is for owners of owner-occupied homes and eligible renters in the qualifying census tracts (i.e., "qualifying residents") that meet specified residency and income requirements. "Owner-occupied homes" are one- to three-unit dwellings in which one unit is the building's owner's primary residence. It includes those that are part of a common interest community (e.g., condominium) with three or fewer units. "Eligible renters" are people who lease and occupy a dwelling unit as their primary residence.

Under the bill, the exemption applies if the qualifying resident has (1) lived in a qualifying census tract for at least two years and (2) federal adjusted gross income of \$125,000 (for those filing as single, married filing separately, or a head of household) or \$200,000 (for joint filers). It applies to the personal income tax, but not the withholding tax. Those eligible for the earned income tax credit may continue to claim it.

Qualifying residents may continue to claim the exemption as long as they live in a qualifying census tract for an entire calendar year. If they move from one qualifying tract to another, without an intervening break, they are deemed to be continuously living in a qualifying census tract for purposes of calculating the two-year residency requirement. They must give the DRS commissioner any information he needs to substantiate their eligibility for the exemption.

Exemption Phase-Out

The exemption lasts until the percentage of residents living within the qualifying census tract with incomes below the federal poverty level

equals or exceeds the average for all of the municipalities contiguous to the municipality in which the tract is located. At that point, the municipality must notify the residents and DRS and the exemption is phased out over five years. The phase-out must reduce the value of the exemption by 20% per tax year until the residents are liable for 100% of the income taxes owed. The municipality and qualifying residents must give DRS any information it needs for the phase out.

Reporting Requirement

Annually, beginning by July 1, 2024, the DRS commissioner must report to the Finance, Revenue and Bonding Committee and include the following:

1. how many individuals claim this exemption,
2. an estimate of the associated revenue loss,
3. the municipalities in which qualifying residents claiming the exemption live, and
4. any other information the commissioner finds informative to assess the exemption's impact and effectiveness.

§ 89 — DAS STATUS REPORT ON SPECIFIED CAPITAL PROJECTS

Beginning by October 1, 2023, the bill requires DAS to report quarterly to the Finance, Revenue and Bonding and Government Administration and Elections committees on the status of the following projects:

1. the design, alteration, renovation, and construction of the Office of the Chief Medical Examiner's facilities and
2. the design, rehabilitation, and construction of the Greater Bridgeport Community Mental Health Center's parking garage, surface parking, and related work.

EFFECTIVE DATE: Upon passage
