SPONSORS OF BILL:

[Rep. Bill Buckbee, 67th Dist.](#)

REASONS FOR THE BILL:

Connecticut needs to expand its energy infrastructure to satisfy its future energy demands while finding sustainable alternative energy sources to help it reach its zero-carbon goals. Further studies into developing, procuring, and employing alternative energy assets benefit both goals. Biosolids may be a potential alternative fuel source; therefore, this bill would establish a task force to study the potential benefits and drawbacks of converting biosolids to energy in Connecticut.
