CORRECTION

To Fiscal Note on LCO No. 8338
sHB-6821, File No. 171

AN ACT CONCERNING CYTOMEGALOVIRUS.

The fiscal note on LCO 8338 stated that **Section 1** of the amendment was anticipated to result in a cost to the state of approximately \$173,502 in FY 25. This anticipated state cost should have reflected as approximately \$500,000 in FY 25.

Section 1 of the amendment, which requires all Connecticut newborns be screened for cytomegalovirus on and after 7/1/25, results in a cost to the Department of Public Health (DPH) of approximately \$467,004 and a cost to the Office of State Comptroller - Fringe Benefits of approximately \$32,996 in FY 25. The cost to DPH reflects the full-year salary of a full-time Microbiologist II, one-time equipment expenses of approximately \$64,693, and other supply and equipment service contract expenses totaling approximately \$325,252, which are needed to support test validation for a full-fiscal-year before newborn screening begins at the start of FY 26.
