The amendment strikes the language in the underlying bill and the associated fiscal impact.

Section 1 of the amendment requires the Department of Social Services (DSS) to conduct a two-part study of Medicaid rates of reimbursement, within available appropriations, resulting in a cost of approximately \$1 million in FY 24 and \$2 million in FY 25 to contract for the comprehensive study. The study must include (1) an examination of rates for physician specialists, dentists, and behavioral health providers, and (2) a review of the reimbursement system for all other aspects of the Medicaid program.

Section 2 requires state agencies that contract with a nonprofit private provider organization for health and human services to allow such nonprofit organization to retain any savings from a purchase of service contract at the end of each fiscal year, after meeting certain requirements. This provision is not anticipated to result in a net fiscal impact to the state.

Section 3 eliminates an OPM incentive program for nonprofit human service providers, similar to the program established in Section 2.

Section 4 requires the Department of Social Services (DSS) to design and implement a program to provide Medicaid reimbursement to certified community health workers. This results in a cost to DSS, the extent of which depends on the Medicaid rates to be established and the utilization of services provided by community health workers.

Sections 5 - 6, which allow facilities to provide nonemergency transportation to residents in certain circumstances and establish a working group concerning nursing home waiting list requirements, have no fiscal impact to the state.
