### ***Explanation***

The bill expands existing requirements for the Siting Council to extend Council representation to municipalities or regional councils of government where the project is proposed, which results in a cost of less than \$10,000 in FY 25 and FY 26. This cost is associated with providing compensation of \$200 or less per meeting for the additional representatives.

### ***The Out Years***

The annualized ongoing fiscal impact identified above would continue into the future subject to the number of meetings held and representation required from municipal and regional councils of government.
