(As Amended)

"AN ACT CONCERNING STATE AGENCY AND COURT PROCEEDINGS RELATING TO ELECTRIC TRANSMISSION LINES."

1 Strike subdivision (3) of subsection (a) of section 3 and substitute the
2 following in lieu thereof:

3 "(3) In addition to the requirements of subdivisions (1) and (2) of this
4 subsection, in the case of any facility described in subdivision (1) of
5 subsection (a) of section 16-50i, or any modification of such a facility: (A)
6 A description of the estimated initial and life-cycle costs for the facility
7 or modification, as applicable, and for each feasible and practical
8 alternative; (B) an estimate of the regionalized and localized costs for the
9 facility or modification, as applicable, and for each feasible and practical
10 alternative, in accordance with the regional independent system
11 operator's procedure for pool-supported pool transmission facilities
12 cost review, or a successor procedure; (C) for any difference between the
13 estimated total costs and estimated localized costs, an analysis of the

14 benefits associated with such cost difference; (D) a detailed analysis of
15 any nontransmission alternatives to the proposed facility or proposed
16 modification, as applicable; and (E) (i) for the ten-year period preceding
17 the date of the application, the actual loads for existing transmission
18 lines in the area where the proposed transmission line is to be located,
19 (ii) for the ten-year period following the date of the application, the
20 projected load for any proposed transmission line, (iii) for the ten-year
21 period preceding the date of application, the performance of all electric
22 circuits for existing transmission lines in the area where the proposed
23 transmission line is to be located, including a description of all service
24 outages or disruptions, any cause for such outage or disruption and the
25 time required to restore service following such outages or disruptions,
26 and (iv) a statement of loads and resources, as described in subsection
27 (a) of section 16-50r, and all planning studies conducted by the regional
28 independent system operator or the applicant associated with the
29 proposed facility."
