---

HB-5356

AN ACT CONCERNING MODIFICATIONS TO THE RENEWABLE  
PORTFOLIO STANDARD.

AMENDMENT

LCO No.: 4706

File Copy No.: 363

House Calendar No.: 238

---

## ***OFA Fiscal Note***

### ***Potential Cost***

The amendment strikes the underlying bill and eliminates its associated fiscal impacts. The amendment requires the Department of Energy and Environmental Protection (DEEP) to conduct a study on the impact of climate change including extreme weather, flooding, and nuclear generating power facilities. This results in a potential cost to the extent that DEEP is required to hire consultants, and additional resources required to facilitate the study.

*The preceding Fiscal Impact statement is prepared for the benefit of the members of the General Assembly, solely for the purposes of information, summarization and explanation and does not represent the intent of the General Assembly or either chamber thereof for any purpose. In general, fiscal impacts are based upon a variety of informational sources, including the analyst's professional knowledge. Whenever applicable, agency data is consulted as part of the analysis, however final products do not necessarily reflect an assessment from any specific department.*
