

I understand this is motivated by Black Lives Matter and I agree that is of the utmost importance.

However i am not really qualified to comment or make suggestions

BUT i do want to say that I feel it is an excessive waste of police to have one parked outside and policing inside every school.

I think it is fine to have someone paying attention and protecting schools but i dont feel that person needs to be paid close to or more than \$100,000 a year.

Are the teachers getting that kind of salary- we have our priorities wrong.

Sincerely

Patricia Lindgren
a grandparent of school kids
