- 0% - 17%
- 18% - 29%
- 30% - 44%
- 45% - 100%
- NA

**Notes:** Some health center locations may overlap due to scale, and a few locations may not be visible when mapped. An estimated 10% of health centers nationwide do not receive federal funding. State maps may include non-federally funded health center sites as well as newly funded health centers as of August 2008, but patient numbers only reflect patients served by federally funded health centers.

\* Congressional District boundaries are as of the 110th Congress.  
\*\* Low income represents under 200% of FPL.

**Sources:** Patient counts: Bureau of Primary Health Care (BPHC) 2007 Uniform Data System (UDS). Site data: BPHC 2007 UDS, BPHC July 2008 list of non-federally funded health centers, BPHC list of August 2008 funded health center grantees. Geographic and demographic information: U.S. Census 2000 and the most recent boundary file from [www.healthlandscape.org](http://www.healthlandscape.org).
