Importance: High

Dear members of the Reapportionment Commission,

My name is Eduardo Sanchez-Carrion and I am a student at Trinity College currently enrolled in "Mathematics and Redistricting" with Professor Kyle Evans. We believe in fair maps and would like to share with you a congressional plan that was created using Dave's Redistricting.

<https://davesredistricting.org/join/cf18d15a-ddf8-40be-8b33-ebc879325b9d>

We believe that this map is fair for the following reasons:

- It maintains the core of existing districts/regions in Connecticut: Fairfield County, New Haven, Hartford, Danbury/Waterbury, and Eastern Connecticut.
- Our population deviation is 0.06%, with only a 418 person difference between the most and least populous districts.
- We did not use incumbent addresses in our process.
- Our districts are more compact than the current congressional plan.
- We kept town borders intact as much as possible and only split 5 towns strictly for minimizing the population deviation.
- We feel that this map reflects the increasing diversity of the state, with two districts having over 40% minority populations.
- With two politically competitive districts, we feel that this map promotes democracy.

Thank you for your consideration of our work in this important process.

Sincerely,
Eduardo Sanchez-Carrion
