Subject: Senate District Boundaries

Dear Commission Members,

As a resident of Darien, the current 25th and 27th district boundaries, which have the town combined with Stamford and Norwalk, do not properly serve the needs of our town. Each of these districts are weighted heavily toward Stamford and Norwalk and do not properly represent the interests of our town. I am asking the commission to redraw the map in with Darien having one state senator.

Thank you,
John Pasvankias
