---

Dear members of the Reapportionment Commission,

My name is Lauren Ianelli and I am a student at Trinity College currently enrolled in "Mathematics and Redistricting" with Professor Kyle Evans. We believe in fair maps and would like to share with you a congressional plan that was created using Dave's Redistricting.

<https://davesredistricting.org/join/7cca0f9b-7cd5-436a-88d7-496fd31b4ebe>

We believe that this map is fair for the following reasons:

- It maintains the core of existing districts/regions in Connecticut: Fairfield County, New Haven, Hartford, Danbury/Waterbury, and Eastern Connecticut.
- Our population deviation is 0.23%
- We did not use incumbent addresses in our process.
- Our districts are more compact than the current congressional plan.
- We kept town borders in tact as much as possible.

Thank you for your consideration of our work in this important process.

Sincerely,  
Lauren Ianelli
